Cloud platforms	Heroku, AWS (Serverless, API Gateway, CloudWatch, S3, SNS, SQS, EC2)
Devops	Docker, Kubernetes, GitHub, CircleCI, Bitbucket, Bamboo

EXPERIENCE

EPAM Systems, Pune – Senior Software Engineer

AUG 2024 – Present

- Ecommerce B2B web application (**Lead developer**) –
Description – Enterprise-grade B2B platform to procure medical equipment and supplies
Responsibility –
 - Led the UI team to architect and deliver the platform on Next.js
 - Built a reusable React component library with Storybook to standardize the design system
 - Authored and optimized GraphQL queries/mutations, reducing over-fetching and improving performance
 - Drove high unit-test coverage with React Testing Library (RTL)**Technologies** –
Next.js, React, Redux, GraphQL, Storybook, JWT, React Testing Library (RTL)

Brillio Technologies, Bangalore – Senior Full Stack Developer

APR 2021 – AUG 2024

- Account Intelligence Dashboard (**Lead full stack developer**) –
Description – Web application enabling sales reps to target set of customers and generate actionable insights
Responsibility –
 - Work with multiple stakeholders across regions to prioritize requirements and develop UI prototype
 - Setup the application in Dell's inhouse kubernetes cluster
 - Built reusable react components on top of MaterialUI
 - Integrated Dell SSO, used inbuilt Node.js library (streams) to stream large datasets on UI
 - Used capabilities of service workers to download UI table data in background**Technologies** –
NodeJS, ReactJS, SQL server, Docker, Kubernetes, MaterialUI, OAuth2, JWT, NodeJS streams

Principal (PGS), Pune – Senior Full Stack Developer

JUL 2016 – Mar 2021

- Web Push notifications (**Lead full stack developer**) –
Description – New communication channel to reach out to the users without knowing them
Responsibility –
 1. Worked closely with an architect for designing and building the application
 2. Leveraged Google Tag Manager (GTM) to integrate minified js file to show notification consent on UI
 3. Deployed web application on Heroku for stakeholders to send out push notifications
 4. Leveraged Auth0 Heroku addon to build user authentication**Technologies** –
ReactJS, NodeJS, MongoDB, HTML5, CSS3, Bootstrap, Heroku, Auth0, GTM
- Custom log activity in SFMC (**Lead developer**) –
Description – Enhance default behavior of Journey builder by creating new activities
Responsibility –
 1. Developed custom log activity to capture user journey to external database
 2. Followed 12 factor app methodology and helped juniors with cloud functionality**Technologies** –
NodeJS, JavaScript, Heroku, JWT, 12 Factor App methodology
- Cherwell change release automation (**Full stack developer**) –
Description – Automate production change management process
Responsibility –
 1. Utilized microservice architecture to deploy serverless application in AWS using lambda functions
 2. Integrated different microservices with respective tools like GitHub, CircleCI, Bamboo**Technologies** –
NodeJS, AWS (Serverless, API Gateway, Secrets Manager), GitHub, CircleCI, Bitbucket, Bamboo
- Marketing automation webinar (**Lead developer**) –
Description – Automate webinar campaign journeys in Salesforce Marketing Cloud
Responsibility –
 1. Develop and manage different journeys and automation in SFMC
 2. Help UX teams create dynamic emails using AMP script
 3. Integrate multiple conferencing tools (WebEx and WebCast) with SFMC APIs**Technologies** –
SFMC, AMP script, Node.js, React.js

ACHIEVEMENTS

- Brilliant of the quarter X 2 (2021 / 2023)
- Ace performer (2019)
- Innovation of the year (2019)
- You are a gem (2018)
- Winner of Code jam (2018)

EDUCATION

Walchand College of Engineering, Sangli

Graduated – MAY 2016

B.Tech – (CSE), CGPA – 8.3

- Club: ACSES (Club Service Director)
